

AWS STUDENT BUILDER GROUP

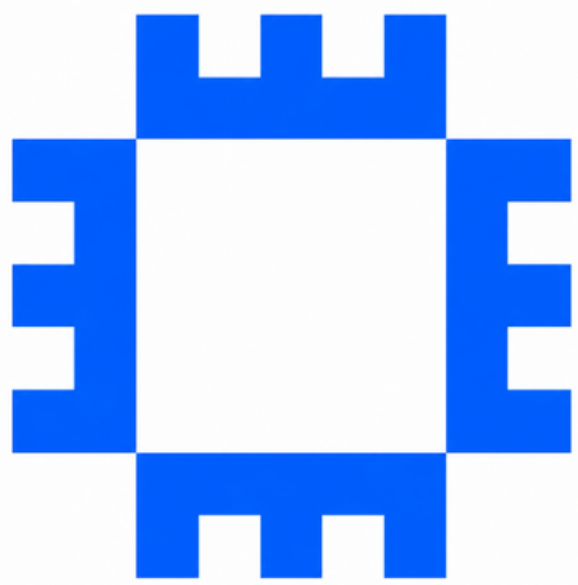

AT GRAPHIC ERA HILL UNIVERSITY

Official Student Handbook

Welcome to the **AWS STUDENT BUILDER GROUP** **AT GRAPHIC ERA HILL UNIVERSITY**

Welcome to the AWS Student Builder Group at Graphic Era Hill University.

Our goal is to explore cloud computing, AI work on hands-on projects, and build a vibrant tech community aligned with AWS ecosystem.

Learn Cloud Skills

Develop practical skills in modern cloud technologies through workshops and hands-on sessions.

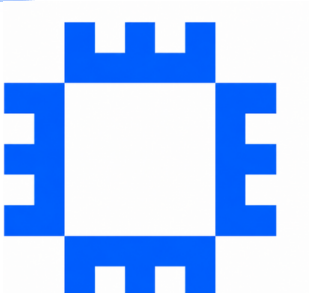

Collaborate

Work on real-world cloud projects with peers, mentors, and industry experts.

Build by Doing

Gain hands-on experience with AWS services and build solutions that make an impact.

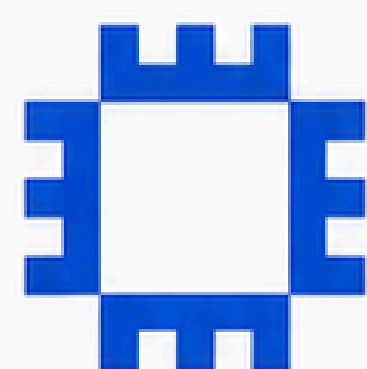

AWS Student Builder Groups

AWS Student Builder Groups (formerly AWS Cloud Clubs) are vibrant, student-led communities on post-secondary school campuses. Students come together to explore cloud technology, build innovative projects, and grow their technical skills. Every group is led by Student Builder Group Leaders (formerly AWS Cloud Club Captains) who are passionate about bringing their communities to life.

With support from AWS, these leaders are responsible for growing their groups, organizing inspiring events, and championing local initiatives that matter to their peers.

Club Formation & Journey

The AWS Student Builder Group at Graphic Era Hill University was formed to create an official, structured cloud and AI-focused student community aligned with the global AWS ecosystem.

The club was initiated to:

Provide hands-on cloud learning beyond classroom theory.

Foster a peer-driven learning environment.

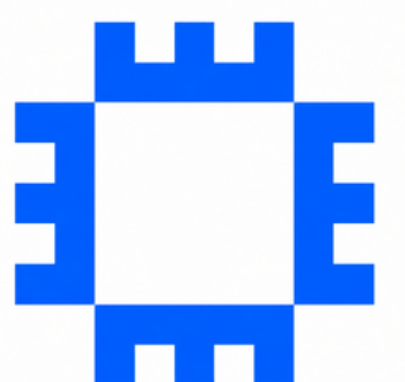

Enable students to work on real-world cloud projects.

Build a strong bridge between students, faculty, and industry.

The club operates under AWS community guidelines and uses **Meetup** as the official platform for member and event tracking.

Our Objectives

Educating Students

On AWS cloud & AI technologies and services

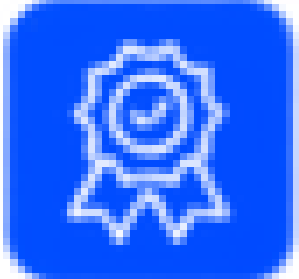

Practical, hands-on experience

Through Club events, projects and initiatives

Equip in-demand Skills and Knowledge

For AWS Cloud computing-related jobs and opportunities

AWS certification

For students

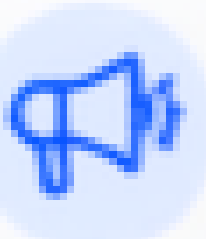

Networking opportunities

With community leaders, enthusiasts, students and professionals

Activities

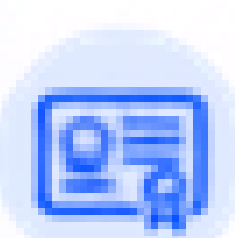

Project Based Learning

Visionary Voices

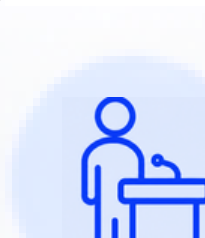

Hackathons

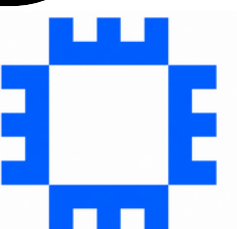

Certification Support

Competitions

Seminars

Membership & Benefits

Membership Eligibility

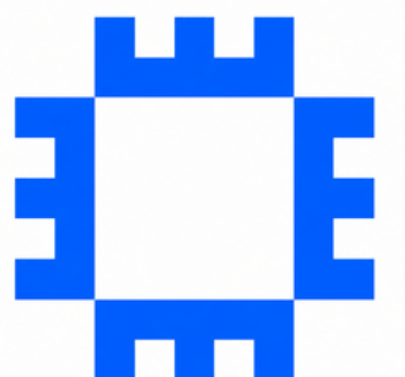

- Open to all students of Graphic Era Hill University
- No prior AWS experience required

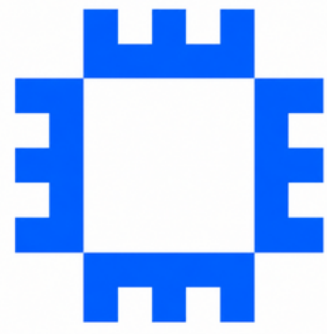

Member Benefits

- AWS workshops and hands-on learning sessions
- Access to official AWS learning resources and programs
- Cloud projects and certification guidance
- Tech talks, events, and collaborations
- Leadership and networking opportunities
- Eligibility for AWS swags, certificates, and cloud credits through official programs (subject to AWS policies)

To Become a Member

- AWS workshops and hands-on learning sessions
- Access to official AWS learning resources and programs
- Cloud projects and certification guidance
- Tech talks, events, and collaborations
- Leadership and networking opportunities
- Eligibility for AWS swags, certificates, and cloud credits through official programs (subject to AWS policies)

OUR TEAM

The people behind the vision and the work.

ABOUT OUR CLUB

We are a community of passionate learners, innovators and builders focused on exploring cloud technologies, AI and automation.

Our mission is to empower students with industry-relevant skills through hands-on learning, real-world projects and meaningful connections.

CLUB LEAD

Vipul Joshi

CLUB VICE LEAD

Tarun Ruwali

KEY HIGHLIGHTS

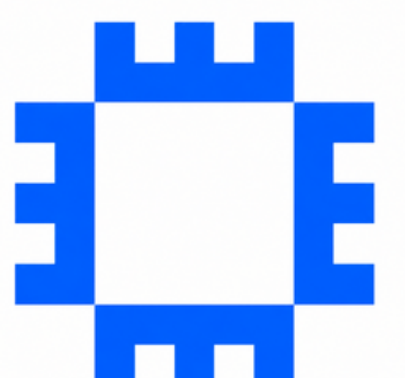

Our Mission

- Learn together. Build together. Grow together.
- Make cloud computing accessible to every student.
- Transform ideas into impactful real-world solutions.
- Create future-ready innovators through continuous learning.

Our Commitment

- Deliver engaging workshops and technical sessions.
- Encourage innovation through projects and hackathons.
- Guide students toward industry-recognized certifications.
- Build a supportive community that grows together.

Together, we lead with purpose, learn with curiosity and build the future.

THE HEART OF OUR COMMUNITY

EVERY WORKSHOP WE ORGANIZE, EVERY EVENT WE HOST, AND EVERY MILESTONE WE ACHIEVE IS POSSIBLE BECAUSE OF THE DEDICATION, CREATIVITY, AND TEAMWORK OF THESE INCREDIBLE MEMBERS. TOGETHER, WE ARE BUILDING A STRONGER AWS STUDENT BUILDER GROUP
